

REFERENCE LETTER

Meiller Polska Sp. z o.o. belonging to F.X. Meiller Fahrzeug- u. Maschinenfabrik- GmbH & Co. KG with its seat in Munich/Germany has constructed modern tipper and semi-trailer assembly plant at the area of Małopolska Special Economic Zone in Niepołomice near Cracow.

F.X. Meiller Fahrzeug- u. Maschinenfabrik- GmbH & Co. KG is the biggest European producer concerning the wide range of tippers, semi-trailers, trailers, as well as hook and chain appliances for the trucks.

New built assembly plant belongs to the first phase of the planned investment at the area of Małopolska Special Economic Zone in Niepołomice.

Hereby we confirm that Gliwickie Biuro Projektów Budownictwa Przemysłowego PROJPRZEM S.A. in Gliwice provided the engineering services concerning the above mentioned investment, i.e. Meiller tipper and semi-trailer assembly plant from June 2006 to March 2008.

Engineering services included the following activities:

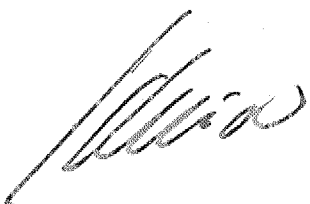

- Obtaining the permit for conducting the activities at the area of Cracow Technology Park,
- Execution of the maps for the design purposes, divisions and soil investigation,
- In the range of Environment Impact Assessment: water permits with obtaining the required administrative decisions,
- Assistance in concluding the agreements concerning the utilities' service connections and points of disposal,
- Building permit design with obtaining the building permit,
- Tender documentation with the award process – assistance in selection and ordering the General Contractor services,
- For construction designs,
- Site supervision from the beginning to the plant start of production, as well as obtaining the occupancy permit.

Range of the F.X. Meiller Niepołomice investment at the area of about **25.000 m²** included the halls complex with the social-office and technical buildings, as well as elements of the site development plan with the retention tank, including particularly the following objects:

- | | |
|---|--------------------------|
| ▪ Social-office building | 574,30 m ² |
| ▪ Assembly, paint shop, trucks control halls, as well as technical objects | 3.525,45 m ² |
| ▪ Paving area (roads, yards, sidewalks) | 9.519,00 m ² |
| ▪ Green areas | 11.180,65 m ² |

The services concerning above mentioned investment were carried out in a professional and reliable way and contributed to the achievement of a good quality and timing.

We are happy with the performance of our partner and we would warmly recommend them to other investors.
